

TO OUR VALUED GUESTS

As we have seen over recent weeks, the global spread of COVID-19 is impacting us all. Like most, we have been carefully monitoring the progression and have been strictly following the advice of both Canada and US public health authorities. At Joey's our guests have always been at the core of what we do and why we do it.

The health and safety of our guests and Joey's employees continues to be our highest priority. As the virus continues to spread in communities across Canada and US. Please check our website regularly to verify each location's operational status. Many continue to operate safely, and offer take out, and curbside delivery at participating locations. We will maintain dine-in operations where permitted and offer value meals and pricing.

We are also committed to the well-being of our passionate Joey's employees, including those who will be out of work during the period. As a team, we have always had each other's back and will continue to do so during this unprecedented time. We are sensitive to the implications of this changing environment, for our staff and will continue to support them by providing information and resources to minimize their burden. We will be in close contact with everyone via social media, and other online resources and look forward to having them back to help host your next visit.

In addition, all restaurant support staffs have shifted to more flexible working arrangements in an effort to provide top-notch preventative measures at our corporate offices.

We look forward to resuming full operations when it is safe for you and our staff alike. But in the meantime, stay safe and take care.

All The Best,

JOE KLASSEN

CEO, Joey's Seafood Restaurants
